presentation systems

System Source is a full service presentation and AV systems company. Our specialists provide a wide range of services including systems design, installation and maintenance.

Interactive Classrooms

University of Maryland Baltimore County (UMBC) – Training Centers

UMBC asked System Source to replace aging overhead projectors with interactive projectors in a newly remodeled training center in Catonsville, MD.

System Source installed 5 Epson BrightLink interactive projectors and 96” interactive projection boards along with customized control panels at each instructor workstation.

Staff members were formally training on the interactive software by System Source personnel.
