

training

System Source has delivered quality training in Columbia and Hunt Valley for 30 years. Private and public classes are taught using instructor-led training in the classroom or virtually, self-paced and OnDemand.

“One of the first Microsoft Instructors I ever had with a very deep knowledge for what he was teaching.”

Will Rapley, Senior Enterprise Systems Engineer
Johns Hopkins Hospital

Menu of Services

Technical Training - Our certified instructors use authorized curriculum to provide engineering, developer and business intelligence courses to help our customers stay current.

Classroom Rental - Customized, reliable training rooms for up to 32 students

Live Virtual Training - Attend our instructor-led courses from home or work

System Source Benefits

Experience Beyond Training - Providing a single point of contact to coordinate training, managed services, systems, service, presentation systems, cloud services and consulting

Quality Instructors - Our expert instructors consistently score 20% higher than the national average for Microsoft Certified Trainers. Instructors are selected for their depth of knowledge and teaching experience. Our technical instructors are certified engineers and developers with multi-platform experience.

Knowledge Guarantee - Train until the material is learned at no additional cost in most classes.

Employer Guarantee - New employees replacing previous students can train for free in most classes.

Flexible, Customizable Courses - Courses are customized to your specifications and delivered at your location or ours. Transition courses and demonstration sessions can be arranged for software upgrades and migrations including Office 365.

Management Reporting - Course completion and student satisfaction reports available

Small Class Size - Average class size of 6 students allows instructors to provide students with individual attention.

“Paperless” Coupons and Training Retainers - Provide savings for multiple, prepaid registrations
