

presentation systems

System Source is a full service presentation systems company. Our specialists provide a wide range of services including system design, installation and maintenance.

“System Source delivers quality and supports each installation from the start, and continues customer care after the job is completed.”

Mark Gunzelman, Information Systems
Tessco

Menu of Services

Evaluation of Needs - We visit your site, listen to your needs and recommend the best audio visual system for your requirements. Needs may include:

- Conferencing
- Conference rooms
- Collaboration Software
- Digital signage
- Streaming and Recording
- Classroom design
- Classroom technology
- Distance learning classrooms
- Computer classrooms
- Huddle rooms

Video Conferencing - High definition video conference installations are coordinated with bandwidth provisioning. Equipment and software can be integrated into presentation rooms or set up for mobile use.

Audio Conferencing – Microphone and speaker placement designed for even sound distribution and pickup. Systems can be integrated with most VoIP and analog phone systems.

Collaboration Technology – Interactive projectors, whiteboards, and LED touch screens can be integrated in conference and huddle rooms with software video conference codecs such as Microsoft Skype for Business, Webex, Go-to-Meeting, Jabber and others.

System Integration and Installation - Audio visual solutions assembled, prewired, tested and then integrated on-site using InfoComm certified technicians and engineers.

Streaming and Recording - Capture live presentations for archiving and retrieval.

InfoComm Certifications - CTS, CTS-D.

System Source Benefits

High Customer Satisfaction - We always receive accolades for our service. Each customer is surveyed to ensure the highest service level.

Experience - System Source has sold and integrated presentation equipment since 1999.

Help When Needed - Service and support is available 24 hours a day, 7 days a week.

Full Service - System Source provides system integration services. A single point of contact coordinates the efforts of our team with your internal stakeholders and other involved trades.

Training - The full value of your new system is realized due to intuitive designs and in-depth training.

MEEC/USM - System Source is contracted to provide select audio visual equipment to members of MEEC/USM.
